

DG RDA insists officials to execute ongoing work on fast track basis

RAWALPINDI, May 30, 2018: A meeting to review on-going schemes and new schemes of Engineering Wing, Rawalpindi Development Authority (RDA) held here today in RDA. The meeting was chaired by Rana Akbar Hayat, Director General (DG), RDA. Athar Hussain Bokhari, Chief Engineer RDA, Rahat Ali Qureshi, Assistant Director (AD) Engineering, Muhammad Faisal, AD Engineering and other relevant officers attended the meeting.

Chief Engineer has discussed and given a detailed presentation about on-going schemes and new schemes of Engineering Wing, RDA like Ring Road project, Construction of Nullah Lai Expressway, Remodeling of Ammar Chowk, Dualization of Link Road from Tipu Road to Airport Road (Sarwar Road), Rawalpindi and others. DG RDA stressed upon the importance of speedy work, insisted to execute ongoing work on fast track basis. He said Ring Road project is inevitable as it's included in Annual Development Programme (ADP) and directed the RDA Engineering officials to work hard. He said when there is no physical impediment in the way of work, it should not be delayed. He said we must increase work time substantially in order to reduce the difficulties of general public.

Chief Engineer also discussed about Construction of a Commercial Tower at RDA plot, Murree Road. DG RDA pledged about Commercial Tower at RDA plot, Murree Road Rawalpindi. He directed all employees to work honestly and diligently to redress grievances of common people.
